Keep it Together with Google Keep	One of the lesser known G-Suite tools may be the most valuable. This session will dive into using Google Keep for note taking, collaboration, and organization of ideas.	Intermediate
Providing Effective Feedback for Digital Writing	It's time to retire that red pen in exchange for the powerful features of Google Docs and Add-Ons to help students develop 21st century writing skills. Re-image the possibilities for peer collaboration and teacher virtual mini-conferencing. See how leveraging customized keyboard shortcuts can allow teachers to provide fast, effective feedback to improve student writing. Join us to learn how Google tools can help you to thoughtfully integrate technology in the writing process and narrow the gap between school and real-world writing.	Intermediate
Unleashing the Powers of Google Drawings	Whether creating infographics, sharing interactive images, planning math activities, differentiating with "hyperDrawings", designing graphics, or sharing graphic organizers, Google Drawings is one of the most under-rated apps in the G Suite! Learn how to unleash the power of Google Drawings and have some fun while you're at it!	Intermediate
BookSnaps and MathSnaps with Google Slides	Curriculum #booksnaps are all the rage! This session will explore how Google Slides is the perfect tool for students to collaborate while sharing and annotating text to show their learning and receive instant feedback!	Intermediate

Session Title	Session Description	Level
Here's Your Sign: Digital Signage in the K-12 Classroom	You've seen digital signs in lobbies, offices, and other public spaces. How can digital signage be used within classrooms? This session will share inspiration behind digital signs and will give participants time to create their own designs to use starting the first day of school! (We will be using Google Slides for this session.)	Intermediate
Universal Design for learning through a Google Lens	Have you ever looked at the Universal Design for Learning (UDL) Guidelines? Are you overwhelmed trying to implement or support those Guidelines in the classroom? If so, or if you are looking for additional ideas for how to put the philosophy of UDL into action, then this is the session for you. Julie helps teachers increase student access to curriculum, developing choice assignments, modeling collection of Mastery-Oriented Feedback and other realistic applications of the philosophy of UDL. You will leave with lots of ideas of how to apply UDL in your classroom with and without the use of technology.	Intermediate
#Google Addict	In this session participants will learn the latest and greatest updates to Google. If you love Google and all that it has to offer, then this session is for you! Come learn about clever tips, ideas, tricks, and techniques that will take your #GsuiteEDU experience to the next level.	Intermediate
Google Tools to Support All Learners	Google and the Chrome Web Browser are powerful tools that can be used to assist students with special needs. In this session we will examine some Google tools and Chrome web extensions that can be installed to support all learners as well as students with learning difficulties.	Multilevel
NEW Google Sites	Come learn how to use the *new* Google Sites to create a classroom website, build a portfolio or use for student projects. With Sites, you can easily share what's happening in your classroom or district with both students and families through seamless Google Drive integration. Participants will learn how to create a site, collaborate with others, add content, and be ready to publish!	Multilevel
