

# Apple at MassCUE 2019

## Interactive Classroom Experience

### You're invited.

Join Apple Education for an immersive learning experience at MassCUE 2019 as we explore and share new ways to raise the bar for what's possible in teaching and learning.

Everyone is born full of creativity. And nurturing that creativity is critical for communicating ideas, solving problems, and making a positive impact on the world. Come unleash your creativity, and discover what's possible only with iPad.

In our interactive classroom, you'll explore drawing, photography, video, music, coding, and augmented reality. You'll get hands on with fun activities, then take your projects home to share with peers.

You'll also have an opportunity to meet one-on-one with Apple Education representatives to learn more about leading new learning initiatives in your school or district.

We look forward to seeing you at MassCUE.
