

MassCUE: Introduction to Google Data Studio and Google BigQuery

Schooling has changed and so have the tools that help manage school data.

Come join us to explore the possibilities of modernizing your data storage and reporting needs with powerful Google tools. Attendees will learn the fundamentals of building a dashboard with Data Studio, gain tips for storing and querying data in BigQuery, and see examples of how schools have leveraged these tools to identify student learning loss, monitor student engagement, disaggregate survey results, report on COVID cases, and much more.

Each participating district will also receive a free 30-minute data consultation with a Five Star data analytics team member, where we will help guide you on next steps in your district's data journey.

DATE: October 15, 2021

TIME: 9:00 am - 11:00 am

COST: Free

LOCATION: Virtual

AUDIENCE: Technology Staff, Data Specialists,
District & Building Administrators, & Teacher Leaders

About the Presenter

Laura has worked for the past 20+ years supporting school districts as they use technology and data to improve teaching and learning. She served as the Director of District Data and Accountability for the Marshfield Public Schools (MA) and as the regional Data Specialist for Southeast Massachusetts.

As the K-12 Data Analytics Specialist at [Five Star](#), she leverages tools such as Data Studio to help tell a story and make data more accessible for everyone.
